

PRADNYA LINGE

FULL STACK DEVELOPER

SUMMARY AND OBJECTIVE

Summary Statement:

- "Highly motivated full stack developer designing, developing, and implementing web-based applications. Proficient in a wide range of front-end and back-end technologies, including HTML/CSS, JavaScript, React, Node.js, and MongoDB. Skilled in collaborating with cross-functional teams to deliver projects within tight deadlines."
- "Passionate full stack developer with a strong background in developing scalable, reliable, and maintainable web applications. Possessing excellent problem-solving and communication skills, able to work both independently and as part of a team. Committed to staying up-to-date with emerging technologies and industry trends."
- "Experienced full stack developer with expertise in designing and building highly performant web applications using Angular, .NET, and SQL. Strong ability to troubleshoot and debug complex code, ensuring optimal performance and user experience. Demonstrated ability to work on multiple projects simultaneously and manage priorities effectively."

Objective Statement:

- "To obtain a challenging full stack developer position with a dynamic organization where I can apply my skills in developing complex web applications using modern technologies, including React, Node.js, and AWS. Seeking opportunities to collaborate with cross-functional teams and contribute to the development of innovative solutions that drive business growth."
 - "Looking for a full stack developer role that will allow me to utilize my strong programming skills, experience in Agile development methodologies, and excellent communication skills. Seeking a dynamic and collaborative work environment where I can work with other talented professionals to deliver high-quality software products."
 - "To secure a full stack developer position with a growth-oriented organization where I can leverage my extensive experience in designing and developing highly scalable web applications. Seeking opportunities to work with emerging technologies and contribute to the development of innovative solutions that meet business needs."

COURSE WORK

- Certified Full Stack Developer By Udemy
- Certified in DSA
- Certified in Advanced C programming language by Coursera

POSITIONS

- I have been serving as Design Head at CSI student chapter , which has surely improved my leadership skills
- I have also been serving as Art circle head at CESA
- Hacker Rank : C lang - 3 stars, DSA- 3 stars

RESEARCH WORK

- Security in IOT
PUBLISHED AT : IJSART

AREAS OF INTREST

- UI/UX
- IMAGE AND VIDEO EDITING
- ADOBE PHOTO SHOP
- AI

EXTRA CIRICULAR

- Awarded as best outgoing student in 2018
- state level basketball player
- state level kathak dancer
- academic rank holder for year 2021-22

EDUCATION

- Pimpri Chinchwad College Of Engineering
- Bachelor of technology - Computer Science , Current CGPA:9.29
- V.P's Vidya Pratishthan's Vinodkumar Gujar Bal Vikas Mandir School, Baramati
-SSC Percentage: 93.8
- Abhinav International School and College
-HSC Percentage : 83.5

TECHNICAL SKILLS

- Proficient in Programming languages such as Java, C, C++, JavaScript ,ASP.NET, Ruby.
- Web development: As a full stack developer, I have knowledge of front-end and back-end web development technologies. This may include HTML, CSS, JavaScript, jQuery, React, Node.js, and AngularJS.
- Databases: Knowledge of database management systems like MySQL, MongoDB, and SQL Server can be valuable in web development and data analysis.
- Algorithms and data structures: I have knowledge of data structures like arrays, linked lists, trees, and graphs, as well as algorithms like sorting, searching, and graph traversal.
- Operating systems: Familiarity with operating systems like Linux and Windows can be useful in developing and deploying web applications.
- Agile development methodologies: Familiarity with Agile development methodologies like Scrum and Kanban can demonstrate your ability to work collaboratively in a team environment

PROJECT ACCOMPLISHMENT

• COLLEGE FORUM WEBSITE

I built a college forum website using HTML, CSS, and PHP. The website serves as a platform for students to engage in academic discussions and share their opinions on various topics.

The design of the website is clean and modern, with a simple layout that allows for easy navigation.

• PORTFOLIO WEBSITE

I built a portfolio website using front-end technologies like HTML, CSS, and JavaScript. The website serves as a showcase of my skills, experience, and projects.

• PORTFOLIO WEBSITE OF FACULTY MEMBERS

I built a portfolio website for a faculty member using front-end technologies like HTML, CSS, and JavaScript. Overall, the portfolio website demonstrates the faculty member's expertise and accomplishments in a visually appealing and professional manner.

• SMART AGRICULTURE IOT BASED NPK MONITORING SYSTEM

Built an NPK monitoring system to detect the amount of NPK in soil , By using knowledge of Computer Networks

• GO TRAVEL WEBSITE

Built a travel website uding MEAN stack development

• CURRENTLY WORKING ON A PROJECT WITH INNOBYTES
